

WHAT TO WEAR?

For many, this becomes the most elegant portrait they will possess in a lifetime. You should dress to feel and look your best, it isn't your everyday look and it shouldn't be. We will be creating an extremely elegant and timeless portrait for you and your loved ones.

01 For a slimmer look, form fitting & figure-hugging is definitely best.

02 Avoid patterns as they may detract from your face. No logos.

03 Textures add visual interest. Lace, sequins and ruffles elevates your look and shows personality.

04 Focus on solid dark colors. Dark colors keep the focus on your face and are the best fit for the style of lighting I use.

05 Avoid cap sleeves. Sleeveless is great on toned arms. 3/4 sleeves are universally flattering and slimming.

06 Dark suit or tux for the gentlemen. Don't forget dark socks and belt.

07 If you must be casual, dark jeans can be worn when dressed up.

08 Express yourself! Go for glam with an epic dress, something unusual and extraordinary.

09 The young ones may wear lighter tones within the same color palette. Accents in your outfit may tie to their color.

10 Accessorize with classic jewelry. Family or generational jewelry may add to your family portrait beauty and story.
